University of Ruse  
Bulgaria

Respected Madam,

I am Chimi Wangmo, a Master's student under the Department of Computer Systems and Technologies at "Angel Kanchev" University of Ruse through Fusion Project from Royal University of Bhutan.

I am writing to express my enormous gratitude to the University of Ruse for having me here for past 10 months and allowing me to successfully turn my dream into reality through this scholarship.

Most importantly, I would you to thank personally the coordinator of Fusion Project, Senior Assistant Professor PhD Nikola Benin and Senior Lecturer PhD Iliyana Benina for their outgoing support and genuine assistance from the time I have reach here till my return. They have always been supportive, cautious and essentially made an impact in my life through their unfailing help in terms of finding accommodation, while I was terminally sick, my classes and introduction to one of the best mentors, Associate Professor PhD Galina Ivanova. With the encouragement from the coordinator and utterly best guidance from my mentor, the end result was nothing but success and it was all possible because of their devoted services. My mentor single handedly supported 7 students and has shown me incredible determination by her sacrifices she had meet for me and other mentees.

At the beginning, my coordinator introduced me to the Department of Computer Systems and Technologies whereby I have the privilege to be known by the Head of Department, Associate Professor PhD, Tsvetozar Georgiev and the related lecturers. I would like to specially thank Associate Professor PhD, Tsvetozar Georgiev, for the support and supervision of my studies from the very beginning to the successful end of my Master's Programme at the University of Ruse.

My coordinator encouraged me to undertake CISCO programme and thus, introduced me to another best Senior Assistant Professor Rumen Kozhuharov. With their introduction, I have my dream coming true; to learn under the best lecturers and develop technical skills.

I can't thank University of Ruse enough for having efficient Fusion coordinator, effective mentor, all the lecturers of the Department of Computer Systems and Technologies and Cisco Academy. My whole perspective and knowledge upgraded during my stay here.

Last but not least, I would also like to thank the whole management of the University of Ruse and especially: the Rector of the University of Ruse, Prof. PhD Velizara Pencheva, the Vice Rector of Education, Prof. PhD Plamen Kangalov, the Vice Rector of European Integration and International Cooperation, Prof. PhD Juliana Popova and the Dean of the Faculty of Electrical Engineering, Electronics and Automation, Prof. DSc Mihail Iliev.

Once again, thank you for allowing me to study in this best University I could ever dream of. I will forever remain indebted to this opportunity.

Sincerely,

Chimi Wangmo

Master student
